Career objective:

Dedicated and proficient Full Stack Web Developer with two years of hands-on experience in the MERN (MongoDB, Express.js, React, Node.js) technology stack. I am passionate about creating robust, scalable, and user-friendly web applications that seamlessly integrate front-end and back-end functionalities.

Academic Qualification:

- Degree in Bachelor Of Social Service from Arfan Khan Degree Collage ,Lawhati with CGPA 2.43.
- HSC in Business Studies from Govt. VM College, Drogram with GPA 2.88 out of 5.00 in 2014
- SSC in Business Studies from Konora High School, Konora with GPA 3.44 out of 5.00 in 2012

Skills:

Front-End: HTML5, CSS3, Bootstrap, Tailwind CSS, JavaScript (ES6+), React.js, Redux Toolkit, Next.js

Back-End: Node.js, Express.js

Database: MongoDB, Mongoose

Tools: Git, GitHub, NPM, Postman, Canva, Figma

Other Skills:

- Basic understanding of Object-Oriented Programming (OOP)
- Team project collaboration using Git and GitHub
- Responsive and mobile-first web development
- RESTful API design and implementation
- Clean, reusable, and robust code
- Solid understanding of software development principles and best practices
- Self-learner and motivated

Training:

- Full Stack Web Development With MERN at Ostad Ltd.
- Foundation of JavaScript at Ostad Ltd.
- Foundation of software engineering at Learn with Rabbil
- Spoken English at 10 Minutes School (Free)

Achievements:

- Successfully developed multiple web applications, showcasing a keen eye for design and a commitment to delivering high-quality user experiences.
- Collaborated with cross-function teams to gather requirements, design architecture, and implement features that meet both client and business needs.
- Proficient in troubleshooting and debugging, ensuring the delivery of bug-free and efficient code.

Projects:

E-learning management System(LMS)

- Client Code: [GitHub](#) | Server Code: [Github](#) | Liver Link: [Live Demo](#)
- Developed a robust MERN stack LMS with features including seamless registration, secure authentication, course exploration, and enrollment. Admin capabilities include course and instructor management.

E-Commerce Web Application

- Client Code: [Github](#) | Server Code: [Github](#) | Live Link: [Live Demo](#)
- Executed a robust MERN e-commerce project with email-based OTP verification for secure user authentication. Features include cart management and diverse payment options such as SSL Commerce and leading banks.

Online Hadis Sikkha Application

- Source Code: [Github](#) | Live Link: [Live Demo](#)
- Developed a responsive online Hadis site using React.js and Tailwind CSS.
